

# Tianle (Tyler) Wu

North York, ON | (437) 987-5626 | [tianlewu29@gmail.com](mailto:tianlewu29@gmail.com) | [Portfolio](#)

---

## PROFESSIONAL SUMMARY

Full-stack developer with a background in mobile development, UI/UX design, and product thinking. Experienced in building user-facing web, mobile, and AI-powered products from idea to implementation, with a strong focus on usability, problem-solving, and end-to-end ownership. Comfortable working across frontend, backend, AI integrations, and product workflows to turn business needs into practical digital solutions.

---

## TECHNICAL SKILLS

**Programming:** TypeScript, JavaScript, Swift, Kotlin, HTML5, CSS3

**Full-Stack & Frontend:** React, Next.js, React Native, Node.js, Responsive Web Development, Reusable Component Architecture

**AI & Integrations:** Generative AI, LLM Applications, OpenAI API, fal.ai, Prompt Engineering, REST APIs, Stripe

**Backend & Data:** Firebase, Firestore, MongoDB, Firebase Authentication, Firebase Storage

**UX & Product:** UI/UX Design, Figma, Design Systems, Wireframing, Prototyping, User Flows, Design-to-Code Workflows

**Architecture & Development:** OOP, MVC, MVVM, Role-Based Workflows, Agile, Scrum

**Tools & Platforms:** Git, GitHub, Jira, VS Code, Cursor, Claude Code, OpenAI Codex, ChatGPT, Google Stitch

---

## PROJECTS

**Novi – Web, App & AI Solutions** | Independent Developer

2026 | [novitoronto.com](https://novitoronto.com)

*TanStack Start, React, TypeScript, Cloudflare Workers, Firebase/Firestore, OpenAI API*

- Built Novi as an AI-enabled business website designed to improve discoverability across web and AI search and convert inbound visitors through an on-site conversational lead qualification experience
- Developed a single-agent workflow that discovers visitor needs, retrieves relevant business knowledge, generates preliminary solution recommendations, and creates structured project briefs for qualified leads
- Implemented server-side tools for lead capture and brief creation with Firestore persistence, conversation state, duplicate-prevention safeguards, rate limiting, usage tracking, and access controls for the AI consultant demo

**Ask Mirra – AI Beauty Web App** | Independent Developer

2026 | [ask-mirra.vercel.app](https://ask-mirra.vercel.app)

*Next.js, TypeScript, Firebase, OpenAI API, fal.ai, Stripe*

- Built and deployed an AI-powered web application from concept to production, owning product strategy, architecture, UI/UX, backend integration, payments, and deployment
- Integrated OpenAI API and fal.ai into an end-to-end AI workflow, with Firebase Authentication, Firestore, Storage, and Stripe Checkout supporting authenticated and paid user flows
- Debugged a production Stripe webhook signature-verification issue and restored the payment-to-preview workflow through end-to-end testing

**BookaPro – Freelancer Marketplace App** | Team Lead & Developer

2026 | [bookapro-app.git](https://bookapro-app.git)

*React Native, TypeScript, Firebase*

- Led a three-person team building a multi-role marketplace, contributing to system architecture, product requirements, Firestore data modeling, and reusable component design
- Designed customer and freelancer workflows across discovery, profiles, services, booking, rescheduling, cancellation, and role-based navigation
- Coordinated GitHub workflows, feature integration, debugging, and MVP delivery in an Agile team environment

**EasyRent – iOS Rental Marketplace** | SwiftUI, Swift, Firebase

*Academic Project, 2026*

- Built a role-based iOS marketplace with Firebase Authentication, Firestore, MapKit/Core Location, and distinct Landlord, Tenant, and Guest workflows, including property geocoding and location-based browsing.

**CarShare – Android Car Rental App** | Kotlin, Firebase

*Academic Project, 2025*

- Built a role-based Android marketplace with Firestore, Google Maps, CRUD workflows, booking management, and modular separation of UI and business logic.

---

## PROFESSIONAL EXPERIENCE

### Full-Stack Developer & Product Engineer | Novi (Independent)

Apr 2026 - Present

- Own end-to-end product planning, UI/UX, full-stack development, deployment, and iteration across Novi's web applications and AI-powered business solutions
- Translate business and workflow problems into practical software solutions across UX, frontend architecture, backend integrations, AI workflows, and lead qualification
- Rapidly prototype, test, debug, and refine product ideas using AI-assisted development tools while balancing usability, technical reliability, maintainability, and business goals

### Frontend Developer (Freelance) | Flash Entertainment, Toronto

Jan 2026 - Jun 2026

- Built a responsive landing page using HTML5, CSS3, and Vanilla JavaScript with a custom 1440px-to-mobile adaptive grid (CSS Grid & Flexbox) and glassmorphism UI effects aligned to the client's film production brand identity

### UX Designer & Marketing Consultant | Chinese New Star Media Inc., North York

Sept 2022 - Mar 2025

- Proposed UI improvement recommendations for the Superlife web platform and mobile app, identifying inconsistencies in typography, layout, spacing, and responsive behavior
- Collaborated closely with the developer team to translate design recommendations into practical implementations, clarifying interaction logic and technical feasibility throughout development

### UI/UX Designer & Editor | Fula Company LTD., Los Angeles, CA

Oct 2020 - Jan 2021

- Conducted 10-20 user surveys and interviews to define needs and preferences; designed a complete user flow for the 'Let's Game' Web and App within a 3-month product cycle
- Created app wireframes and website MVP; collaborated with developers on requirements specs and feature modules

---

## EDUCATION

### Mobile Application Development and Strategy | George Brown Polytechnic, Toronto

Sept 2025 - Aug 2026

Ontario College Graduate Certificate (GPA 4.0)

- Relevant Coursework: iOS development with Swift/SwiftUI, Android development with Kotlin, full-stack and cross-platform development with Node.js, MongoDB, Firebase, React Native, system architecture design, and Figma prototyping.
- **Notable Accomplishments:** *Dean's Honour List (2025, 2026) | Excellence Student Award (2026)*

### Master of Arts in Journalism | University of Southern California, Los Angeles, CA

July 2017 - Dec 2018

- Developed experience in communication, interviewing, research, and information synthesis through audience-focused storytelling

---

## CERTIFICATIONS

- Scrum Fundamentals Certified (SFC) - ScrumStudy | May 22, 2026
- Google AI Essentials | Oct 30, 2024
- Google UX Design Certification | Aug 28, 2023

---

## HACKATHONS

### Cursor Hackathon Toronto | Team Participant | July 2026

- Built a web prototype with a team to help engaged couples simplify wedding-planning decisions, using Cursor for rapid ideation, development, debugging, and iteration

---

## VOLUNTEER EXPERIENCE

### UI/UX Design Lead | Snowball Digital LTD., Toronto, ON

Mar 2024 - Aug 2024

- Led 0-to-1 product design for recommendation, feed ranking, and search features, working closely with engineers to align user experience decisions with technical constraints
- Conducted competitive analysis and user interviews to identify pain points and translate findings into product requirements and roadmap decisions
